Testing dates:	13.06.2024 - 21.06.2024
Time spent:	40 hours

Project KIMBA Version 2.0
Product version: 2.0

General quality analysis
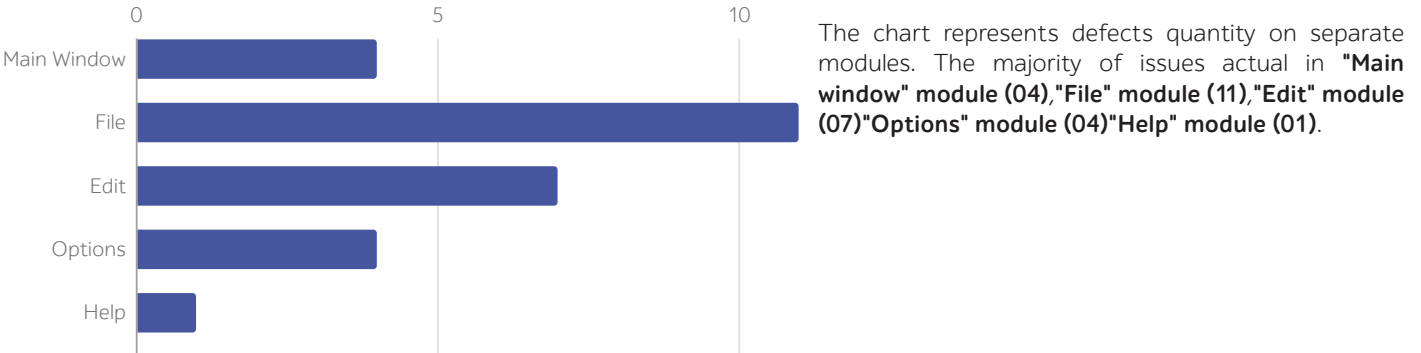

The overall quality of the application can be estimated as **Below Midium**. The total number of defects is 28. Functional defects prevail, 1 of them have the Critical severity and 6 defects gain the Major severity. The majority of defects is opened for modules "File" and "Edit". A detailed quality analysis is presented below.

Detailed quality analysis

The total number of defects by severity

- Critical
- Major
- Average
- Minor

The chart shows the statistics of defects by the degree of the negative impact they have on the application. Almost **3.70%** of issues have **Critical** severity. **Major** **(22.22%)** defects prevail. **Average (55.55%)** defects prevail. **Minor (18.52%)**.

The total number of defects by components

The chart represents defects quantity on separate modules. The majority of issues actual in **"Main window" module (04),"File" module (11),"Edit" module (07)"Options" module (04)"Help" module (01)**.

Quality of separate modules

Module	Quality	Comments
Home	• Above Medium	The quality of this section can be estimated as above medium. Only 4 defects were found here. The issue (QATC-850591) concerns Fun: Order by random" is selected when no picture is selected. Another notable defect (QATC-850746) is that Pictures does not adjust when open the application.
File	• Below Medium	The quality of module is estimated as Below Medium. In this section 11 defects were found. The most important problems are the following: A folder is created instead of a zip file when creating a gallery (QATC-849618).
Edit	• Medium	In this section 7 defects were discovered during the testing, 2 of them have priority Major. The most important defects are that "Auto-Optimize Red-Eye-Reduction" button are not clickable when attempted to click (QATC-850271) and Sharpness does not change when click on the slider (QATC-850208).
Options	• Medium	The quality of module is estimated as Medium. In this section 4 defects were found. The most important problems are the following: The application is not properly translated to German when language is set to Deutsch (QATC-850596).
Help	• Medium	The quality of module is estimated as Medium. In this section 1 defects were found. The most important problems are the following: displayed "404 not found" (QATC-849599).
